SHOT IN HIS BED.

J. H. Delaney Dies By Wife's Hand.

Woman's Resentment Arose Against Reproofs for Indiscreet Conduct.

Completes Ghastly Crime by Firing Into Her Mouth and Falling Dead.

Was Known to the Stage as "Bessie Mortimer"—He a Merchant.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Nov. 23.—[Exclusive

Dispatch.] James Hatfield De-

laney, president of the American

Shipping Company, was shot to death

while asleep in his fashionable apart-

ments, No. 492 La Salle avenue, this

morning, by his wife, Elizabeth, who

then committed suicide.

Circumstances point to the probabili-

ty that Mrs. Delaney killed her hus-

band after he had learned of indis-

cretions in her conduct and threat-

ened to separate from her.

Mrs. Delaney was the daughter of

Charles E. Brown, formerly well

known in Chicago, but now living in

Wills Point, Tex. At one time Brown

was owner of the Del Prado Hotel.

HER STAGE CAREER.

Miss Brown graduated from the Chi-

cago Dramatic College and went on

the stage when she was 19 years old.

One season she played with Otis Skin-

ner in the play "Francesca Da

Rimini." She was known on the stage

by the name of Bessie Mortimer.

"Delaney was wealthy, and had

given his wife every luxury she de-

manded; but that, despite this atten-

tion, she had longed for the lights

and glamour of the stage which she

had left to become a wife is one theory

advanced. That another man, an actor,

had begged Mrs. Delaney to the scene

of her early triumphs is also

whispered.

The dead couple were found in their

room by the janitor and a maid shortly

before noon.

The bodies were drenched in blood,

that of Delaney lying on the bed with

a bullet behind and above the right

ear.

His wife had fired a bullet into the

roof of her mouth.

The husband evidently had been

slain as he slept, as he was clad only

in his night garments, and his face

bore a calm expression.

A second bullet was found imbedded

in the pillow near his head.

Mrs. Delaney fell at the foot of the

bed, and the revolver, with three

empty chambers, was found beneath

CONDEMNNS LOBBYISTS.

Sensation Sprung at Guthrie Consti-

tutional Convention When Resolu-

tion Is Offered.

[BY THE ASSOCIATED PRESS.—P.M.]

GUTHRIE (Okla.) Nov. 23.—Some-

thing of a sensation was sprung at

today's session of the constitutional

convention when a delegate from In-

dian Territory proposed a resolution

condemning lobbyists and their tac-

tics.

The rumor that certain interests had

representatives on the ground for the

purpose of influencing the men who

will write the new State's constitution,

was embodied in the resolution which

was referred to the Committee on Mo-

tions.

Before adjourning until Monday af-

ternoon, the convention authorized the

issuance of invitations to President

Roosevelt, Henry Waterson, W. J.

Bryan and the Senate committee now

touring the Indian Territory to ad-

dress the body.

PRAIRIE FIRE

SWEEPS CLEAN.

LIVES REPORTED LOST IN LONE

STAR STATE.

Over Fifty Thousand Head of Cattle

Left Without Grazing in Western

Texas and New Mexico—One Mil-

lion Acres Burned Black and Bare.

Northerner Turns Flames Back.

[BY THE ASSOCIATED PRESS.—P.M.]

SANTA FE (N. M.) Nov. 23.—Re-

ports have reached here that a prairie

fire has swept from Western Texas into

Eastern New Mexico, and that over a

million acres of grazing and homestead

land has been burned bare of foliage.

No loss of life is reported in New

Mexico, but it is believed several per-

sons perished in Texas. It is estimated

that on both sides of the boundaries

between 50,000 and 100,000 head of cat-

tle have been left without grazing.

Many ranchers are preparing to ship

their live stock at once to the nearest

market, while the larger ranchers will

drive their cattle to other ranges. The

grass was short and the cattle stam-

ped back and forth through the fire,

but suffered little injury.

The flames swept portions of Palmer,

Deaf Smith and Oldham counties, Tex-

as, and burned thirty-five or forty

miles to the Pecos river in New Mexico.

Some homesteaders in Roosevelt coun-

ty are said to have lost their crops.

Some ranch buildings were burned, but

PUBLIC GOOD HIS AIM.

Lindley Outlines His Policy to Sixth Warders.

Invades Stronghold of the Union Labor Party.

Boulevard, Cleaner Streets, Free School Books.

Dr. Lindley invaded the stronghold of the Union Labor Party last evening, addressing a large meeting of citizens of the Sixth Ward at Fisher's Hall, Adams street and Central avenue. Although he was in the very center of the district where the laborer is dominant, he started and where it is flourishing, he received an enthusiastic greeting. Accompanying him were numerous other Republican candidates for municipal offices, who were introduced by A. M. Gates of the Sixth Ward Republican Club.

"It is a source of pride to me to announce that I am the candidate of the Republican party," said Dr. Lindley. "With the support of that powerful party, which always has been in the van in the promotion of the good of the American people, I am certain of election to the high office I seek. But if success were less certain, I should prefer defeat as the candidate of that party than election as the candidate of any other organization."

PARTY WORK TO COME.
"I believe that the work of the Republican party is not yet completed. It is time now for us to prepare for the great campaign of the year, now, when we shall be called upon to elect a President, and when the Republican party will be called upon to name a man to succeed our present President. Executive, Theodore Roosevelt, or even to name Mr. Roosevelt to succeed himself in the office to which he has done such signal honor."

"This is no time to destroy our party; it is no time for us to give up our identity as Republicans. Let us as a party nominate and elect such men as will reflect credit upon our city and there will be no ground for criticism of our acts. I am in favor of bringing about such reforms as are needed by taking the necessary action within our own ranks."

"The late Republican City Convention certainly placed itself upon record as an untrammelled assembly of delegates, free to do as their constituents desired. There never was a more independent convention within my knowledge. I know this, for I know that my nomination came to me without any 'orders' from a boss, without the dictation of any corporation or representative of such interests."

WEARS NO 'COLLAR.'
"When I take my seat as Mayor of Los Angeles, as I expect to do on January 1, I shall do so as a free American citizen, with no 'collar' around my neck, under no obligation to any corporation or to any political boss. No one shall tell me what I am to do. My acts will be my own and I will be responsible for them only to the people who elect me."

"The door of my office always will be open to the public. I shall be glad to receive suggestions from the people. I shall welcome advice from all and will tolerate advice from none."

"I pledge myself to appoint to the various commissions the very best men that can be found. I am for the water with the note idea of conserving the best interests of the people of Los Angeles. They will be my own appointees and I will be responsible for their acts."

"The greatest matter of interest now before the people is the Owens River project. There are many reasons why this should be of overshadowing importance. One is that we have nearly enough water to provide for the needs of our population of a quarter of a million. Our population will double within the next few years and we must see to it that we have water for all these that are to come."

"I say our population will double; yes, it will. Our city and again double, provided we have the water to supply this enormous number. Without the water we cannot hope to go ahead on so grand a scale."

PUBLIC WEAL HIS AIM.
"There are many questions in connection with the bringing of that water here that will have to be acted upon by the Mayor. I am for the water for all the people. There will be an enormous amount of electrical energy at our disposal in connection with the bringing of the water to our doors. There will be energy for lighting and for power purposes and that business will have to be handled to a great extent by the Mayor. On all these things I shall be guided solely by a consideration of the interests of the taxpayers. No man will be permitted to take any unfair advantage of the city in connection with any phase of the great Owens River project."

"The coming of the Owens River water means clean streets; it means pure air; it means better health conditions; it means a greater and more beautiful city; it means the expenditure here of millions of dollars—the employment of thousands of men."

"There is another project that I hope to see developed—the building of a great wide, macadamized roadway from Los Angeles to the sea over the half-mile strip recently annexed to the city. At the sea end I hope to see a free harbor that will belong to the city and that will not be under the control of any private corporation. From the free harbor, over the free road, freight may be hauled in wagons and by any other means, absolutely independent of the railroads."

FOR A GREATER CITY.
"I hope to do my part to secure free school books; I want to see more beautiful school yards and shall work for them; I want to see Los Angeles made the most attractive city in all the world, the lodestone for tourists from abroad as well as from other parts of our own country."

"For all these things I shall work, and as I have said before, I shall act on my own initiative and not under the orders of any man or set of men."

At the close of his address Dr. Lindley made a run in his automobile around the southeast corner of the city to the extreme northwest corner, where he spoke to an audience in Pasadena.

Other speakers at the Sixth Ward meeting included E. E. Johnson, candidate for Tax Collector; H. Z. Osborne, for Treasurer; Evan Lewis, for Assessor; George Beebe, for City Attorney; Norman Bryant, for Auditor; H. H. Yonkin, for Councilman, Sixth Ward; and Joseph O. Downing, for member of the Board of Education. F. A. Stephenson spoke at some length, arguing that there is no necessity in the present campaign for a non-partisan

WHAT WALTER LINDLEY HAS DONE FOR LOS ANGELES.

In deciding whether Dr. Walter Lindley should be elected Mayor of Los Angeles, the real question is not whether he is a Republican or a Democrat, a Partisan, Non-Partisan, or a Socialist, but what has he done for Los Angeles. Of what value has he been to our city in its financial, industrial, commercial and social relations? Judged by that standard, Walter Lindley is pre-eminently a more suitable candidate for the chief magistracy of our city than either of the other three gentlemen in the field.

Coming here on October 8, 1875—more than thirty-one years ago—Walter Lindley has been active in the interests of Los Angeles from the day of his arrival. At once, he began writing articles in Eastern newspapers and magazines drawing attention to the advantages of the city and of Southern California generally. This led to much correspondence with Eastern inquirers, to all of whom—hundreds of them—Walter Lindley wrote personally, with the result that family after family has been added to the city's population, some of whose members are prominent in business circles today. In 1896, Dr. Lindley wrote "California of the South," which was published by Appleton's, went through three editions and was widely reviewed and copied.

The very next year after his arrival Walter Lindley built the first house on Fort street, now known as Broadway. This was followed by his building at least a dozen more houses on the same street. The doctor has also built at least twenty residences in the city, some of them quite costly, and all of which are permanent additions to the city's tax roll.

The following schedule will give a partial idea of the additional values in buildings in Los Angeles and vicinity for which the city is indebted to Walter Lindley:

Houses on Fort Street (Broadway).....	\$ 30,000
Twenty residences.....	100,000
Los Angeles Orphans' Home.....	75,000
California Hospital.....	200,000
College of Medicine.....	125,000
Two Buildings County Hospital.....	15,000
State Reform School.....	200,000
Idyllwild Mountain Resort.....	125,000
Total.....	\$870,000

Other minor buildings and properties in Los Angeles and vicinity, make up a total value of over one million dollars of property for which this city is indebted to Walter Lindley. That record alone, or a half of it, or even only a third of it, is reason enough for his being put in command of the forces of progressed and progressive Los Angeles for several years.

DR. LINDLEY'S FAITH IN CITY.

EARLY PURCHASES OF REALTY PROOF OF CONFIDENCE.

His Keen Business Sense Demonstrated by His Transactions in Real Estate from Days Before the Boom—Some Remarkable Rises in Values.

Among the many business activities that have engaged Dr. Lindley in his residence of over thirty years in Los Angeles, none demonstrates more completely his absolute and everlasting faith in the future of the city than his investments in real estate. If any proof of his business acumen were needed it is shown in the record of his transactions in realty. He has bought lots, now extremely valuable, for a mere fraction of their present worth and has seen prices jump from almost nothing to figures that in the early days would have been staggering.

Had the doctor been a follower of the Astor practice and had he held on to every lot he owned, he would have owned a good big share of some of the most valuable property in the city and his fortune would be reckoned in seven figures.

In 1885, for instance, Dr. Lindley and his friend, the late John H. Jones, bought the property on Los Angeles street, extending from Fifth to Winston street, the entire square for \$25,000. Former Mayor F. F. Spencer, president of the First National Bank, also was negotiating for the property and offered \$30,000, but Dr. Lindley and Jones bought it for \$25,000. An amusing point in the transaction was that the doctor borrowed from Mr. Spencer's bank the money with which to pay for the property, which was sold three months afterward at a profit of \$23,000.

Another interesting transaction was the purchase by Dr. Lindley of the southeast corner of Fifth and Broadway for \$600, and the day after the purchase he sold it for \$1,000. A syndicate composed of Henry W. O'Melveny, J. A. Graves and Eugene O'Rourke, who had bought the lot, which is now worth probably \$250,000.

Just at the close of the boom of 1887, Dr. Lindley bought forty-two feet on Fourth street, opposite the present site of the Angell Hotel, for \$1,000. Three years ago he sold the property for \$55,000; now it is reputed to be worth \$130,000. The money received from the deal was invested in real estate, principally on Figueroa street, near Pico, at \$90 per front foot. Its value now is said to be about \$500 a foot.

In 1885, the doctor bought a lot 40x120 feet, on Broadway, between Fifth and Sixth streets, opposite what now is Mercantile Place, for \$50 a front foot. During the five years he was at Whitier, he was obliged to neglect his business interests in this city and to gain needed money, sold the property for \$15,000. A short time ago he sold it for \$150,000. The doctor's property for \$150,000 cash, and it since has been sold to W. E. Cummings at that figure.

At No. 215 West Sixth street, Dr. Lindley owns a three-story brick building, which he erected in 1887. It is said to be the first brick building put up in that part of the city. The lot cost him at the rate of \$40 a front foot.

It required an abiding faith in this city to make some of these investments; it also required business sense and insight. His part in the transactions simply emphasizes the fact that the doctor is a man of nerve, of firm convictions and of keen business sense. His faith in the city is not a blind faith, but a faith in the city to which strong public sentiment indicates that he will be elected in a little less than two weeks.

HE EMPLOYED WILSON.

SAYS HE IS A DANGEROUS CANDIDATE.

LOS ANGELES, Nov. 23.—[To the Editor of The Times.] During the nearly twenty years of my residence in Southern California and Los An-

gle, I have seen many candidates for the office of Mayor of Los Angeles. I am not in politics, never was and expect never to be, otherwise I should have served as a voter deeply interested in high-standard Americanism, strength and ever-advance of the city, the State and the nation.

But I am so profoundly moved and alarmed by the unfortunate and perilous Mayorality complication that I venture to suggest a point for consideration by the Times and the public, a point which, it seems to me, has been overlooked by all the newspapers.

Los Angeles is no longer a village. It is a great city. Its position today is superb and commanding among cities. Its reputation for the world is high. Its civic standards as a whole are excellent. Its commercial and industrial growth is rapid. Its citizenship is undoubtedly far above the average. There are many strong, purposeful men in Los Angeles who are doing their best to advance the city. It is a point which, it seems to me, has been overlooked by all the newspapers.

The possibility of the election of a Mayor utterly unqualified to lead the city is a matter of great importance. It is a matter which, it seems to me, has been overlooked by all the newspapers.

YONKIN GIVES HOWTON CHILL.

HOPE FOR SIXTH WARD IN THE REPUBLICAN CANDIDATE.

Popular Under Sheriff Making Winning Race for the Council Seat Now Occupied and Still Coveted by Demagogue Who Has Done Nothing for Constituents.

election and judgment equal to the management and direction of a highly organized business establishment.

The Mayor of Los Angeles, the Mayor of any large city, should be a man of affairs, a man capable of successfully directing and controlling any great commercial enterprise. If we may with wisdom and public safety suddenly promote any person who has no little personal force and capacity, and ability that at 40 or more years of age he is still only clerk, to the Mayorality of a city of a quarter of a million, then why ever again invoke upon our city the personal capacity for the Mayorality?

Either the people who are supporting Mr. Wilson's candidacy are grossly underestimating the responsibility and dignity of the Mayor's office, or they are grossly overestimating Mr. Wilson's capabilities.

The election of Mr. Wilson, or the election of any man of equal inexperience and incapacity, would be a misfortune to be measured only by our civic sense of folly as the fruit of an ill-qualified Mayorhip ripened, and rotted, and made up all assumed and apologetic, afterward.

Incidentally, I shall vote for Dr. Lindley, for the simple reason that, while I believe both Mr. Harper and Mr. Gates are good men, the catastrophe of electing so untrained and inexperienced a person as Mr. Wilson should concentrate the complete force of the Republican vote of this city, the Republican vote being normally the largest and the easiest to rally.

PAUL H. BLADES, 115 Hedden Building.

YONKIN GIVES HOWTON CHILL.

HOPE FOR SIXTH WARD IN THE REPUBLICAN CANDIDATE.

Popular Under Sheriff Making Winning Race for the Council Seat Now Occupied and Still Coveted by Demagogue Who Has Done Nothing for Constituents.

Down in the Sixth Ward, where more voters are registered than in any other

section of the city, there is a raging one of the liveliest Councilmanic contests since the board has been in political stages. It is a war for representative government on one side against Howton and all for which he stands on the other side.

It is a battle of the home owners to place in the Council a man who will work for their interests rather than a demagogue and a gallery-placer.

There are several candidates in the field against Howton, who has the reputation of being a demagogue and a gallery-placer. It is a battle of the home owners to place in the Council a man who will work for their interests rather than a demagogue and a gallery-placer.

WASHINGTON BRIEFS.

Dr. Pacas Returns Home. WASHINGTON, Nov. 23.—Dr. Rosa C. Pacas, the newly-appointed Minister to this country from Salvador and Honduras, has returned to his home in Salvador. He remained here only a short time after his presentation to the President and Secretary Root, and it is reported in diplomatic circles that he will not come back to Washington.

FLASHES FROM WIRES.

The Post Express of Rochester, N. Y., announced yesterday afternoon that the Rev. A. P. Crapsey, D.D., had decided to resign from the ministry of the Protestant Episcopal church. This would obviate the necessity of Bishop Walker passing sentence.

At Thursday's session of the National Academy of Sciences convention at Boston, Dr. Alexander Graham Bell of Washington, D. C., expressed the opinion that the problem of flight had been solved by Langley and his flying machine.

Ruling that the Pullman Car Company has not been guilty of adulterating the milk and cream used on their cars, but that it had been technically responsible for the presence of formaldehyde in its food supplies, Judge Alexander D. McConnell Thursday at Greensburg, Pa., imposed the minimum sentence provided by law, which is a fine of \$50 and costs.

Fire Thursday night wiped out an entire block on Main street between Second and Third avenues, Aberdeen, N. D., causing a loss of \$300,000. The fire was discovered in the Sherman House department store and spread rapidly, destroying the Sherman Hotel and a number of buildings in the vicinity. No one was injured.

According to a Butte dispatch deposited of the defunct Acton Banking and Trust Company will not receive more than 10 or 12 per cent. dividends, although it was announced in Washington Saturday by the Comptroller of the Currency that the prospective dividends had been estimated at 22 per cent. The conclusion of the comptroller was arrived at because of the clerical error made by the receiver of the Butte bank in transcribing his report to the comptroller.

The French government has retained Charles M. Jacobs of New York City, who designed the Pennsylvania Railroad tunnels under the North and East rivers, to prepare plans for a tunnel to be built under the River between Boston and Havre. The French tunnel will have two railroad tracks. It will be about a mile in length. The cost of construction is estimated at between \$10,000,000 and \$11,000,000. It is believed to be modeled after the North River tunnel.

The sale of Wednesday night and Thursday on the great lakes caused a heavy loss to vessel property and twenty-three lives. The barge Reo-tule sank off Toronto and six men were drowned. The barge Athens is probably lost off Sandusky, O., with eight men. All hope for the Athens, however, has not been abandoned and tugs are scouring Lake Erie for her.

Six engines were injured, one of them fatally; three engines were wrecked and one baggage car was demolished in a head-on collision of the Colorado Midland Railroad about midnight yesterday between two engines running light West and passenger train No. 6 east-bound. Fireman Victor Bieglov of the passenger train was killed. No passengers were hurt, though a number were severely shaken up. The wreck occurred at Hattiesburg, sixteen miles west of Natchez.

The barge Athens, which was supposed to have come down in Lake Erie in the storm Wednesday night with all on board, is safe and the captain and crew are alive and well at Huron, O.

A private dispatch from Mexico City to Victoria, British Columbia, says the contract for the British Columbia Mexican Steamship service was signed there Thursday. Canada has already signed the contract. The line will be established in March with monthly sailings to Liverpool.

As a reprisal against the Bulgarian Government's decision, adopted some time ago, not to admit Jews into Bulgaria, no matter whence they came, Roumania has now adopted measures to prevent Bulgarian Jews from entering Roumania. This prohibition is extended even to Jews who are in possession of passports. This is according to a dispatch from Bucharest.

King George of Greece arrived at Rome Friday afternoon. He was received at the railroad station by King Victor Emmanuel and other dignitaries of state. Accompanied by King Victor Emmanuel, King George drove to the palace. The sovereigns were warmly acclaimed by the throngs of people assembled to witness the Greek monarch's arrival. The police last night and this morning made several additional arrests of suspected "anarchists."

Chatham, N. B. reports that sixty lives were lost and nearly a score of vessels were swept to destruction on treacherous reefs and sandbars of the Gulf of St. Lawrence during the season of navigation now drawing to a close. Of those who perished in these waters within the past year, nearly fifty met death this month.

The preliminary investigation made by the captain of the port of Cherbourg into the cause of the collision Wednesday night of this port of the North German Lloyd Steamer Kaiser Wilhelm der Grosse and the British Royal Mail Steamer Olinde was to establish the fact that the former vessel should have headed the Olinde's signal that she was going to starboard of the German ship.

A raise of 10 per cent. in wages was announced by the Calumet and Hecla Mining Company at Calumet, Mich., yesterday. Between 5,000 and 6,000 workmen are benefited by the increase.

The annual wage conference of the New York Central Railroad with its firemen, was completed yesterday. Various advances were made in the wage scale, and no decrease.

FALLS FROM CAR. In leaving a San Pedro-street trolley car at Fourth and Main streets last night about 12 o'clock, C. V. Bradley of No. 743 East Thirty-second street fell to the pavement and sustained slight bruises to his limbs and a laceration of his right arm. He went to the Receiving Hospital for treatment.

Walsh Sees the Ghost. Jimmie Walsh must have seen the hooded ghost of Santa Monica for he has pulled up stakes in the seaside resort and returned to Los Angeles to train for his fight with Abe Attell. He goes to the Eastlake Athletic Club quarters to finish his work. Since his arrival in Los Angeles Walsh has had little to say but is plugging away at his training and accomplishing good results. He has great confidence in his ability to beat Attell, now that he is stronger and larger.

Republicans Tonight. Republican meetings at which Dr. Lindsey and other candidates are scheduled to speak will be held this evening at follows: Masonic Hall, Pico and El Molino streets; Forty-seventh street and Central avenue; and Wood's Hall, Highland Park.

COL. H. D. LOVELAND
of San Francisco, elected president of the Trans-Mississippi Commercial Congress at Kansas City yesterday.

prepared to reap the full benefits that may come to us in the new commercial era to be ushered in by the opening of the Panama Canal, 8 feet in depth and about 500 miles in length, from the Mississippi River to the Rio Grande, as one of the most beneficial waterway improvements in the Union.

ELASTIC CURRENCY.

"We are of the opinion that a large measure calculated to introduce into the financial system of the currency the element of flexibility of currency should receive early and earnest consideration by the United States Congress, having in view always the security, safety and value of such currency at par with gold."

"We favor the best-sugar industry and recommend to the United States Congress that no legislation antagonistic to its future development be enacted."

This congress, at its sixteenth session, recommended the location of a naval station on the southern coast of California, near the Mexican border, but as yet the national Congress has not taken any action regarding this important matter.

"Since the passage of the resolution, Admiral Goodrich and other prominent naval officials have publicly advocated the location of such a naval station in the harbor of San Diego, Cal., and that the necessary funds be appropriated for this purpose."

"We commend most heartily the disposition of the Congress of the United States in fostering the work of the great Department of Agriculture. We express the sincere belief that no other feature of the work of our government meets with more general approval of the whole people than this department under the guidance of its able head, the Secretary of Agriculture. He is ransacking the earth for facts and bringing to the varied conditions of our vast country the results of his researches of all times and climes; introducing new, rare and valuable plants and greatly augmenting the permanent production of the wealth of the country. He is eliminating the semi-arid belt by selection of plants to be grown, by the introduction of methods adapted to existing conditions and by the encouragement of industries that thrive."

"We especially call attention to the growth of the sugar industry. Under the present administration, and largely through the Secretary's effort, the trans-Mississippi section of the United States now produces in sugar an amount equal to 117 per cent. of its consumption."

"The drainage of the swamp and overflowed lands of the United States will add many millions of acres of fertile land to our productive territory, improve health and benefit commerce. We inclose the drainage operations and surveys now being carried on by the United States Department of Agriculture and urge their extension."

"We recommend the encouragement of increased facilities for the transportation of live stock to market, and that the government aid the live stock industry by extending the foreign markets for its products and by scientific attention to the diseases to which stock and herds are subject."

"The mining industry of the United States has grown to vast proportions and importance, now exceeding a billion and a half dollars of annual product, and is capable of still greater extension, if encouraged by the government, as agricultural industry has been fostered."

"We heartily favor the establishment by act of Congress of a national Department of Mines and Mining."

"It is the sense of the Congress that the surface of the 465,000 acres of segregated coal and asphalt lands in the Indian Territory should be sold in tracts of five acres or longer, with annual payments therefor, and the money arising therefrom should be paid to the Indians entitled thereto. The coal and asphalt in said lands should be leased in tracts not to exceed 800 acres, and the royalties paid should become a permanent school fund for use of the State of Oklahoma."

"We recommend a suitable appropriation to be made by Congress to further the Alaska-Tukon-Pacific Expedition that will be held in the City of Seattle beginning June 1, 1909."

YOU CAN'T EXPECT LONG LIFE AND PROSPERITY

If you persist in drugging your body to cover up aches and ails.

You feel bad—then try to smother your feelings (nature's warnings) with tobacco, whisky, or COFFEE—the most dangerous "friends" one can mix with.

They cajole and then KILL.

RENEW YOUR LEASE ON LIFE

Stop the food and drink that does not nourish.

Go on Grape-Nuts and cream and a simple diet. Quit coffee and let old Mother Nature put you well again.

You can call in the help of a powerful friend—the food beverage.

POSTUM

"There's a Reason"

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

The Board of Public Works yesterday rejected all bids for the construction of the outfall sewer and decided to have the work done by day's labor under the supervision of City Engineer Hamlin.

The Los Angeles gas concern on St. John street seeks permits to operate in the district where gas is prohibited by city ordinance, and is sustained by Mayor McAlister and Fire Commissioner Robinson.

The Fire Commissioners yesterday granted motive power permits to numerous manufacturing concerns.

The proposed change of grade on Matthews street brought many protests before the Board of Public Works yesterday. The case is continued one week.

Mrs. Aurelia Schack was relieved of the charge of perjury and released from custody yesterday by Judge Trask, who said that the testimony taken by the grand jury did not fulfill the requirements of the law.

Thomas Wilson has brought suit against the city to have it enjoined against enforcing the ordinance regulating repair and removals of buildings within the fire limits. He was recently notified by the Building Inspector that the building on Fifth street in which he carries on business violates this ordinance.

The Huntington Park Improvement Company has applied for a writ of relief of its officers from the jurisdiction of the Board of Public Works and the incorporation of Huntington Park and which are claimed to be illegal.

The suit of Walestein Root and other Pasadenaans to enjoin their city from using municipal funds for the construction of a lighting plant was in Judge James's court yesterday and may be settled today.

William J. Beaver was examined before Justice Young yesterday. He is charged with embezzling a check belonging to the Continental Building and Loan Association.

Three bucket-shop proprietors were arrested and gave \$100 bonds each for their appearance to face a charge of violating the gambling ordinance.

AT THE CITY HALL.

CITY TO BUILD OUTFALL SEWER.

ALL BIDS REJECTED AND NEW SCHEME ADOPTED.

City Engineer Hamlin Will Rush Work on Great Drain and Maintain Both Day and Night Shifts—Believes Municipality Will Save Much Money Over Bidders' Figures.

The city will complete the outfall sewer by day labor.

This was decided by the Board of Public Works yesterday afternoon. It was expected that there will be a considerable saving to the municipality through this action. The work will be prosecuted under the direction of City Engineer Hamlin, and is to be pushed forward with all possible speed.

At yesterday afternoon's session of the Board of Public Works the report of the City Engineer was read, recommending this action, and a report of the City Attorney, stating that the board has the authority to reject all bids and that the work be completed by the city. On motion of Commissioner Hubbard all bids were then rejected and a resolution was adopted that the city should do the work under the supervision of City Engineer Hamlin. The report of the City Engineer is as follows:

"Referring to the resolution on November 19, 1906, for the construction of a portion of section No. 3 of the outfall sewer, I have the honor to report as follows:

The bid of E. R. Fox is apparently irregular in that he requires \$26 per thousand to be paid for the tunnel, whereas the specifications of the proposed contract and the other bids call for only \$12.50 per thousand to be paid for such tunnel.

Owing to this variation in the bids the only way in which they can be compared is upon the basis that all the timber used in construction will be left in the tunnel and paid for by the city.

There will probably be 1,200,000 feet of timber used in constructing this portion of the sewer. The table below shows the amount of the bids on the basis above referred to:

E. R. Fox bid.....	\$265,000
Timber left in tunnel at \$20.....	350,750
Per M.....	40,750
E. C. Alsop.....	251,425
Timber at \$20 per M.....	16,951
Atlantic, Gulf and Pacific Co.....	251,421
Timber at \$12.50 per M.....	22,600

Careful estimates made by this office indicate that the same work can be done by the city, including timbering for \$237,000.

None of the foregoing bids or estimates include the cost of the inspection, cement and brick and to be furnished by the city and will cost this project, delivered on the ground, about \$45,201; superintendence and inspection will be about \$19,527. Total, \$65,728.

Adding these amounts we have as the total cost to the city under the several bids and estimates the following:

E. R. Fox.....	\$270,825
E. C. Alsop.....	274,638
Atlantic, Gulf and Pacific.....	251,089
City.....	232,125

In arriving at a conclusion, it should be borne in mind that while the bids are compared on the basis that all timbering will be left in the tunnel, and paid for by the city, still the amount which may actually be used and left in the tunnel and paid for by the city is an unknown quantity and, therefore, the estimated cost under the respective bids, in case the work was let, might be reduced. Still under all the conditions confronting the city and the imperative need for the early completion of the sewer and the great delay which would ensue if another contractor should default on this work, I recommend that the work be done by the city by day labor.

E. C. Alsop and Col. E. R. Fox, both bidders on the outfall section 3, were present when the action was taken. Col. Fox was visibly agitated, and insisted on discussing the case after the board had taken final action. He advised the dissimilarity of the present City Engineer, and securing some one who would not undertake to make estimates on "extra" work; he declared that he had no right to state what he should use in the proposed work.

"We have disposed of this matter, and are perfectly satisfied with our City Engineer," finally declared President Anderson.

"Well, I shall now see that your day afternoon granted the petition of

charter amendments are defeated," was Col. Fox's parting shot.

One of the charter amendments provides that city employees engaged on municipal work outside the city limits shall not be subject to civil service rules. This is intended to provide for the employment of large gangs of laborers without the delay necessary should they have to undergo civil service examinations, and to make it easier to employ temporary labor.

Will L. King, business agent for the Bricklayers' Union, was on hand, and demanded a copy of the proceedings of the board. With a lofty air, he informed the board that he stood ready to help them "whenever they needed it," and as the board didn't need any advice, particularly right then, he was allowed to save his strength and depart. King took occasion, however, to backbite the Times before quitting the room for his command to forward the tunnel work on section 3. He now has twenty-five men employed there, and is running both day and night shifts. He will immediately increase the force of men, and will carry forward the work in accordance with the plans under which he has been operating for the past month.

LOWE SEEMS PERMIT.
"MORE TROUBLE," SAYS MAYOR.
There was another bout over the application of Thaddeus Lowe's concern, the People's Gas and Coke Company, at the meeting yesterday of the Fire Commissioners.

This concern wants a permit to establish and operate steam boilers at its gas plant on St. John street. The petition has been before the commission for several weeks. In the meantime the City Council has passed a resolution requesting the commission to refrain from granting permits to gas companies to operate in locations outside the district outlined by the city ordinance on that subject.

Robert Todd, representing the people of the neighborhood, appeared before the commission and the permit application came up yesterday, and asked that it be denied. He declared that the property owners there don't want gas works in the neighborhood, and that they have persistently protested both to the City Council and to the commission.

Commissioner Anthony Schwamm made a plea for East Los Angeles, declaring that he should oppose granting the permit because the smoke and fumes of the gas plant would waft over part of the city and would prove a nuisance to the district, and also because the children's playground for the Eighth Ward is located only a block away from the gas plant.

The Mayor and Commissioner Robinson were in favor of granting the permit, notwithstanding the request of the Council that they abide by the city ordinance. Commissioner Wren wanted the advice of the City Attorney as to whether the granting of the permit would be legal in the face of the ordinance.

"I don't like to put the City Attorney up against the proposition," said Mayor McAlister. "He has troubles of his own, and the people have invested a lot of money down there. I think they ought to be allowed to operate until the courts are decided."

Commissioner Schwamm moved that action be delayed one week, and that the City Attorney be given the opportunity to state his position on the proposed action. The motion passed, and the Mayor declared, "You can't get it any more up here by the wholesale. We ought to have settled the matter right now."

Meanwhile the People's Gas and Coke Company is allowed to operate by sufferance.

AUDITORIUM WINDOWS.
Councilman Howton asked the Fire Commissioners, yesterday, to recommend changes in the windows at Temple Auditorium. He stated that on the circular exits the windows were clear to the floor, and that they open outward and have no outside bars.

During the fire of yesterday, one of these windows broke and broke the glass. Had the window been closed, the fire might have been kept out of the auditorium. He asked that the commission recommend the placing of a metal bar over the outside of these windows as a safeguard to human life in case of fire or outside. The subject was referred to the fire chief and the Superintendent of Buildings for an investigation.

Fires of the Past Week.
Fire Chief Lips made his weekly report on fires to the Fire Commission, yesterday forenoon. There were twenty-three alarms, and the total loss is estimated at \$1225. Three were false alarms.

Motor Permit Granted.
After having dragged along for almost six weeks, the case of F. G. Hubbard, applicant for a permit to install a motor at No. 1319 Leoti street, was settled yesterday by the Fire Commission. He was given a permit to install and operate an electric motor in a small shop at this place, for the manufacture of mission style furniture and experimental work. The permit was opposed by residents of the neighborhood, and their main plea was that the place is close to the Huntington Park school, and this creates a menace from fire and a nuisance by reason of its noise and dust created.

Emergency Hosemen Appointed.
The Fire Commission yesterday appointed emergency hosemen Harry Toomey, W. E. Brown and J. Defty. Hoseman F. Hendricks was dropped from the rolls.

Relief for Firemen.
Edward A. Johnson, a fireman who has lost several weeks' time on account of illness, was granted the relief fund yesterday by the Fire Commission. Frank R. Willis, driver of Engine Company No. 14, and C. H. Griddle, hoseman of Engine Company No. 7, be retired on half pay. This was taken under advisement for one week.

More Improvements Asked.
Petitions have been received by the City Clerk asking for the improvement of Leonard avenue between Wilton Place and Norton avenue by private contract; for the placing of a sewer in Miguel street from Broadway avenue to Boyson street; for a change in grade of the east side of Fremont avenue from Second street to a point south; to improve Thirtieth street from Normandie avenue to Western avenue; and for the opening of a new street from Fifth street north to the first alley.

Protests Received.
Protests have been received by the City Clerk from the Los Angeles Railway Company against the action of the Board of Public Works in accepting the sewer on Mission road. The protests allege that the work was not done in accordance with the specifications, and that the appropriation of miles avenue from South Park avenue to Eureka street.

Sixteenth Street Opening.
The Board of Public Works yesterday afternoon granted the petition of

property owners for the opening of

East Street, from Santa Fe avenue to Alameda street.

Paving Los Angeles Street.
Victor Root and others have petitioned for the paving of South Los Angeles street from Fourth to Fifth streets.

Matthews Street Grade.
A large delegation of property owners on Matthews street appeared before the Board of Public Works yesterday afternoon, to discuss the proposed change of grade on that street from Fourth to Sixth streets. There were three propositions before the board. One petition asking for the change represented a frontage of 120 feet, a proposed asking that the grade be changed to run the water in the opposite direction represented 110 feet, and there were those who desired the street to remain as it is at present. A frontage of 90 feet will be affected by the proposed change. The board has taken the case under advisement for one week.

MANY PERMITS GRANTED.
INDUSTRIAL INTERESTS GROW.
The Fire Commission granted another batch of permits for motive power at its session yesterday. The favorite power appears to be electricity, and there are frequent applications from firms now established, asking permission to change from other forms to electric motors.

W. G. Dandy was given permission to install a machine shop and a gas line engine in the rear of Washington street. The Taber Whitmore Company was allowed to establish an electric motor at No. 3419 South Main street for a window-shade factory.

L. Z. Raney at No. 1181 East Twelfth street was allowed a permit to place a electric motor in his candy factory. The Baker Iron Works wanted to place twelve electric motors in its plant at No. 226 Buena Vista street, and this was granted. A permit was also given to the Lynn Streeter Ruter & Blight Co., candy manufacturers, for an electric motor at No. 723 San Pedro street.

Montgomery & Muller now use an electric motor in their planing mill at the northeast corner of Fifth and Main streets, and H. Harrison received a permit for a gasoline engine for his automobile repair shop at No. 1212 South Main street. S. L. Kislner was allowed to run a steam engine in a machine at No. 226 Quintero street. The Pacific Coast Biscuit Company may now have a steam boiler in its cracker factory.

AT THE COURTHOUSE.
MRS. SCHECK IS RELEASED.
PERJURY INDICTMENT DECLARED NOT MAINTAINED.

Judge Trask Holds That Requirements of Law Are Not Fulfilled in That Grand Jury Received no Testimony, Except the Woman's, to Disprove Her Original Story.

Mr. Aurelia Schack, who was charged with being the accomplice of Ernest Stackpole in the murder of his husband, Joel Schack, was turned loose yesterday. Judge Trask held that the indictment for perjury returned against her by the grand jury was faulty and could not be maintained.

Mrs. Schack at once returned to the County Jail with her counsel, H. H. Appel, and a few minutes later turned her back upon the place where she has been confined for some months past.

The indictment was based on the fact that Mrs. Schack had sworn to the grand jury that she had no knowledge of the murder of her husband, and that she had no knowledge of the whereabouts of her husband after he had been abandoned by her.

It is claimed that the girl is just passed 16 years of age, and that when she was between 12 and 13 years old, she was brought from San Diego by a man named Weatherston; that under promise of marrying her, they took her to a place in the desert, and that when the man abandoned her, he took \$500 which she had inherited.

It is claimed that the girl is just passed 16 years of age, and that when she was between 12 and 13 years old, she was brought from San Diego by a man named Weatherston; that under promise of marrying her, they took her to a place in the desert, and that when the man abandoned her, he took \$500 which she had inherited.

WANTS BOARD MONEY.
AND BRINGS TWO SUITS.
Mrs. Bertha L. Kreamer has begun suit against Mrs. Nora Dick to recover money alleged to be due her for playing the part of the Good Samaritan.

The plaintiff claims that she took Mrs. Dick and her young daughter, Leona, into her home, and undertook to board them for \$20 a month, on condition that she receive some assistance in the house work. They remained there until May 22 of last year. If it is alleged, and during that time, paid \$40. Mrs. Kreamer claims that there is \$100 now due, and for that amount she has brought suit.

As a separate cause of action, Mrs. Kreamer alleges that Mrs. Dick became ill, and that she nursed her through her sickness, and that she taught and clothed Leona, and to both gave board and lodging, from May 25, 1906, to the present time. For this she asks \$40 a month is reasonable compensation, and for the aggregate amount of \$512 also asks judgment.

EMBEZZLED CHECK?
CHARGES AGAINST BEAVER.
William J. Beaver is charged by the Continental Building and Loan Association of San Francisco with having embezzled \$2500, and he was before Justice Young yesterday for examination.

After the systematic looting of the San Francisco company by the trio, Masteron, Christy and Taylor, Beaver was installed here and last month Detective George N. Tichenor swore to a complaint against him, charging that in November, 1904, he mailed a check for \$3500. This check was made payable to Nettie J. Jackson. When endorsed by her it became negotiable and it is claimed that Beaver appropriated it to his own use.

The facts in the case are involved and all of yesterday was consumed in taking testimony regarding the company's mode of transacting business. The case was continued until next Monday.

PASADENA'S SUIT.
MAY BE SETTLED TODAY.
The suit brought by Walestein Root and sixty-five other plaintiffs against the city of Pasadena, to enjoin it from using municipal funds in the construction of an electric-lighting plant, came up for trial yesterday.

It is claimed that the city has no authority to use money from the ordinary tax levy for municipal purposes. Attorney H. Goudge represented the plaintiffs and City Attorney Perry Wood and Attorney William J. Hunsaker the city of Pasadena. The case will be concluded this morning.

COURTHOUSE NOTES.
BREVITIES MISCELLANEOUS.
STOLE WATCH. Theodosio Vazquez was sentenced to two years at San Quentin by Judge Smith yesterday on a five-day sentence by Justice Austin. The man had been found guilty on a jury trial the day before.

Woman Thief Sentenced.
Mrs. C. G. Lowry, who confessed that she had robbed many offices in the business district of small amounts because her husband was drunk much of the time, was given a \$30 or thirty-day sentence yesterday by Police Justice Chambers. The woman has no money and will serve the sentence.

Pistol Brings Trouble.
Maria Mendoza, who was found two days ago near the Southern Pacific depot by Patrolman Smith with a revolver, was fined \$20 yesterday in the Police Court. According to the statements of the officer she was seeking for another woman who had supplanted her in the affections of a man, and intended to shoot this woman on sight.

THIO OF DIVORCE. Gertrude Bozard was given a divorce yesterday from Joseph Bozard, on the ground of desertion. The parties were married in Illinois in May, 1904. The wife then accompanied her husband, who was an aeronaut, to Clinton, Iowa, where he was to make an ascension. At Clinton he abandoned her. Addie Spangler was granted a divorce from Andrew Spangler and Susan Stanton.

Among Hindoos.

which was delivered before his con-
gregation on the previous Sunday even-
ing.

Rev. B. F. Boller will speak on Sun-
day evening in Olivet Congregational
Church, on his "Experiences in the
Church of a Great City."

will be made whereby the city will
take over the local water system before
the first of the year. A bill is to be
rushed through Congress, providing
the purchase of the system from a part
of the \$300,000 bonds voted for the in-
stallation of a municipal water supply
plant. Plenty of water is available and
of the best quality, but the mains are
almost valueless, most of them being
both small and rusted out.

SHEEP MEN COMING SOUTH.
The cold weather of the last few
days is driving the sheep men south
from the mountains and within a
month, several hundred thousand sheep
will be grazing on the plains north of
this city.

It has been learned that Senator
Foraker will be unable to accompany
the party of Congressmen, scheduled to
visit Arizona within the next forty-
night.

EX-GOV. TRITTLE DIES.
Ex-Gov. Frederick A. Trittle died at
the Sisters' Hospital yesterday morn-
ing from dropsy. The funeral will be
held at the residence of his son in
Phoenix tomorrow afternoon, under the
direction of the Knights Templar, Gov.
Trittle was 72 years of age, and a native
of Chambersburg, Pa.

In 1859 he was a resident of California,
later making his home in Nevada,
where he served in the Legislature and
was at one time the nominee of the
Republican party for Governor.

In 1880 he moved to Arizona, two
years later being appointed Governor
by President Arthur.

It was ex-Gov. Trittle who organized
the United Verde Copper Company to
work the mines which since have given
millions of wealth to Senator Clark.
The early methods of ore reduction,
were not suited to the character of the
ore found, transportation was extremely
expensive and the enterprise was
also handicapped by the unpropitious-
ly low price of copper at the time.
This it happened that failure was the
portion of the mine who first explored
what now is considered one of the
greatest mines of the world.

Besides a widow, four children sur-
vive. Two of the sons have become
prominent in Arizona politics.

PHOENIX NOTES.
During fair week there was a boom
in the marriage market of Phoenix.
Among the couples who came hitched
to be joined were E. L. Kinsland of
Los Angeles and Mabel Bennett.

Wednesday of fair week Rev. Robert
McIntyre of Los Angeles gave a lec-
ture on "The Sunny Side of the Soli-
darity of Life."

WIFE DEERTS HIM.
Simpson Seeks Aid of Police—Another
Woman Plays Important Part
in Story.

W. R. Simpson told the police yester-
day a story about his wife, another woman and a
home.

The other woman earns her living
and enjoys freedom from domestic
care. She had taken Mrs. Simpson to
one or two clubs. Recently the wife
left a note and departed, taking with
her an eight-year-old daughter. Simp-
son has not been able to sleep since.

In desperation the husband sought
the aid of the police. He had hard
work to refrain from tears. He is a
man of middle age and has been mar-
ried ten years. He works for wages
and claims that he always came home
regularly and gave his earnings to his
family, who lived comfortably at No.
3705 Dayton avenue.

According to Simpson, they were
happy until a few months ago, when
the other woman became acquainted
with his wife. The two went out to-
gether. There is a freedom in the life
of a girl who supports herself which
appeals to some women who live in the
confines of their own home, and have
to count nickels to make ends meet.

Mrs. Simpson, during the past few
months, saw some of this freedom,
and liked it.

What Mrs. Simpson would say was
not learned, because she could not be
found. Simpson says that he did not
stop his wife, who, at point of view,
he told him that she had left him for
all time, in the company of the other
woman.

Mrs. Simpson is 26 years of age, and
is about 5 feet 4 inches in height.
Her weight is about 164 pounds. She
has pale blue eyes and light hair.
There is a mole on her left cheek.
The little girl's name is Grace, and she
has blue eyes and fair hair. Simpson
thinks that his wife will change her
name and seek domestic employment.

THE best of all—CORONA highball.

CARBON BRIQUETS.

Solid Fuel users are now put-
ting in their winter supply of
Carbon Briquets. Call up
Broadway 5155 or F2990.

THE destruction of the lumber yard
of T. W. Chamberlain & Co., in Pho-
enix yesterday afternoon served to dem-
onstrate the deficiencies of the local
water system. The fire engine, itself
delayed in arrival on the ground, soon
pursued the water supply mains dry and
a modern and well equipped fire de-
partment stood around and saw prop-
erty destroyed that could have been
saved, had enough water been at hand.
It is expected that some arrangement

will be made whereby the city will
take over the local water system before
the first of the year. A bill is to be
rushed through Congress, providing
the purchase of the system from a part
of the \$300,000 bonds voted for the in-
stallation of a municipal water supply
plant. Plenty of water is available and
of the best quality, but the mains are
almost valueless, most of them being
both small and rusted out.

Will Be Made Next Spring to
Squelch All Drinking Places.

PHOENIX (Ariz.) Nov. 22.—Tues-
day was held one of the hottest elec-
tions ever known in this city, and yet
it was called by the members of the
City Council acting only as citizens.
It was to feel the pulse of the citizens
upon the question of continuing gam-
bling within the city limits. In all the
churches of the city, an active cam-
paign had been made, and from every
pulpit on the Sunday preceding had
been preached a sermon upon the
evil that should be checked. The
election was held with the ordinary
accessories of the Australian ballot
system, but without any warrant of
law, hence it was that the purchasing
of votes was unobtrusively carried on.
Even within a few feet of the ballot
box, Mexican voters were paid in bank
checks, a course of procedure that
would have landed both the buyers and
bought, in the penitentiary in any reg-
ular election. This availed, however,
only in the Fourth Ward, where the
gambling element carried their point
by a vote of 145 to 88. Each of the
other three wards was carried in the
negative, the total vote of the city be-
ing 642 against to 435 in favor of
the gambling.

Only voters registered on the last city
great register, in May, were permitted
the ballot, thus guarding against stu-
ffing. Mayor Coggin and the members
of the City Council have announced
that they will be guided by this ex-
pression of the people's wish and that
there will soon be passed the most
stringent ordinance against gambling
that can be drafted. In Douglas and
Tucson gambling has been suppressed
by taxing it out of existence and by
the expedient of not permitting gam-
bling to be carried on in the vicinity
of a drinking saloon. Here, it is un-
derstood, the city charter provides that
gambling may be absolutely prohibited
and this it is proposed to do.

Another move, along the same line,
backed by a part of the church ele-
ment, will be an attempt next May to
delay the election from the city. At
present the city is deriving a revenue
of \$20,000 per annum from thirty drink-
ing places, licensed. It is said that
the campaign will be conducted on pre-
cisely the same lines that proved ef-
fective at Long Beach, Cal., and that
the same minister who led the fight
in that city will be brought here in
April, to start the campaign for pro-
hibition. The fight against gambling
and liquor selling will be continued
into every part of the valley in order
to guard against the establishment of
a miniature Monte Carlo near the
city.

BET SUGAR FACTORY.
The management of the Glendale
beet sugar factory already has com-
menced to make contracts with the
farmers for the best supply of the
coming season. Now that it has been
demonstrated that the Salt River Val-
ley is an eminently suitable spot for
the growing of sugar beets, still an-
other factory is projected, to be built
in the vicinity of Mesa, on the south
side of the city, at point reached by
both railroad systems and in the
center of an immense body of land,
suitable for beet growing.

PHOENIX ORANGE SHIPMENTS.
Several carloads of well-colored and
matured oranges have been shipped
from Phoenix and Mesa to New York,
going by express, in order to catch
the Thanksgiving market. The only
criticism of the shipments is that the
sies run too large to suit the retailer.

INADEQUATE FIRE SERVICE.
The destruction of the lumber yard
of T. W. Chamberlain & Co., in Pho-
enix yesterday afternoon served to dem-
onstrate the deficiencies of the local
water system. The fire engine, itself
delayed in arrival on the ground, soon
pursued the water supply mains dry and
a modern and well equipped fire de-
partment stood around and saw prop-
erty destroyed that could have been
saved, had enough water been at hand.
It is expected that some arrangement

will be made whereby the city will
take over the local water system before
the first of the year. A bill is to be
rushed through Congress, providing
the purchase of the system from a part
of the \$300,000 bonds voted for the in-
stallation of a municipal water supply
plant. Plenty of water is available and
of the best quality, but the mains are
almost valueless, most of them being
both small and rusted out.

SHEEP MEN COMING SOUTH.
The cold weather of the last few
days is driving the sheep men south
from the mountains and within a
month, several hundred thousand sheep
will be grazing on the plains north of
this city.

It has been learned that Senator
Foraker will be unable to accompany
the party of Congressmen, scheduled to
visit Arizona within the next forty-
night.

EX-GOV. TRITTLE DIES.
Ex-Gov. Frederick A. Trittle died at
the Sisters' Hospital yesterday morn-
ing from dropsy. The funeral will be
held at the residence of his son in
Phoenix tomorrow afternoon, under the
direction of the Knights Templar, Gov.
Trittle was 72 years of age, and a native
of Chambersburg, Pa.

In 1859 he was a resident of California,
later making his home in Nevada,
where he served in the Legislature and
was at one time the nominee of the
Republican party for Governor.

In 1880 he moved to Arizona, two
years later being appointed Governor
by President Arthur.

It was ex-Gov. Trittle who organized
the United Verde Copper Company to
work the mines which since have given
millions of wealth to Senator Clark.
The early methods of ore reduction,
were not suited to the character of the
ore found, transportation was extremely
expensive and the enterprise was
also handicapped by the unpropitious-
ly low price of copper at the time.
This it happened that failure was the
portion of the mine who first explored
what now is considered one of the
greatest mines of the world.

Besides a widow, four children sur-
vive. Two of the sons have become
prominent in Arizona politics.

PHOENIX NOTES.
During fair week there was a boom
in the marriage market of Phoenix.
Among the couples who came hitched
to be joined were E. L. Kinsland of
Los Angeles and Mabel Bennett.

Wednesday of fair week Rev. Robert
McIntyre of Los Angeles gave a lec-
ture on "The Sunny Side of the Soli-
darity of Life."

WIFE DEERTS HIM.
Simpson Seeks Aid of Police—Another
Woman Plays Important Part
in Story.

W. R. Simpson told the police yester-
day a story about his wife, another woman and a
home.

The other woman earns her living
and enjoys freedom from domestic
care. She had taken Mrs. Simpson to
one or two clubs. Recently the wife
left a note and departed, taking with
her an eight-year-old daughter. Simp-
son has not been able to sleep since.

In desperation the husband sought
the aid of the police. He had hard
work to refrain from tears. He is a
man of middle age and has been mar-
ried ten years. He works for wages
and claims that he always came home
regularly and gave his earnings to his
family, who lived comfortably at No.
3705 Dayton avenue.

According to Simpson, they were
happy until a few months ago, when
the other woman became acquainted
with his wife. The two went out to-
gether. There is a freedom in the life
of a girl who supports herself which
appeals to some women who live in the
confines of their own home, and have
to count nickels to make ends meet.

Mrs. Simpson, during the past few
months, saw some of this freedom,
and liked it.

What Mrs. Simpson would say was
not learned, because she could not be
found. Simpson says that he did not
stop his wife, who, at point of view,
he told him that she had left him for
all time, in the company of the other
woman.

Mrs. Simpson is 26 years of age, and
is about 5 feet 4 inches in height.
Her weight is about 164 pounds. She
has pale blue eyes and light hair.
There is a mole on her left cheek.
The little girl's name is Grace, and she
has blue eyes and fair hair. Simpson
thinks that his wife will change her
name and seek domestic employment.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

LACK OF LIGHT CAUSES FEAR.

ARK STREETS IN OUTLIVING PART OF PASADENA.

City Authorities Are Unable to Furnish Adequate Lamps for the More Distant Parts of Town—Good Turnout at the Benefit Concert Given for the Health Camp.

Office of The Times, No. 25 E. Raymond Ave.

PASADENA, Nov. 23.—The inability of the city authorities to furnish adequate lights in the outlying districts is causing much complaint on the part of the residents of the sections affected. In the newly-annexed territories the streets are so poorly lighted that travel after dark is almost impossible, and several narrow escapes from injury have been reported by people who have driven into unlighted obstacles.

A few nights ago a woman applied at the Police Station for an escort home, saying that she was being annoyed by a man and that she feared to go alone. An officer was detailed to accompany her. Later the officer stated that the street was in such condition as to make walking dangerous, and that the absence of lights made it unsafe for any unprotected woman to attempt to travel after night.

In North Pasadena there are no street lights north of Washington street, and it is only on those streets having car lines that the lights run as far north as that. Many of the streets are lined with trees and on nights when there is no moon are filled with dark traps. In the eastern section the same conditions prevail, and the work of the police is made doubly hard, owing to the absence of lights.

The city authorities promise that as soon as the municipal plan is in running order street lights will be furnished in all parts of the city, but the litigation which has tied up the whole project makes it doubtful if any relief can be looked for from that quarter in the immediate future.

HEALTH CAMP PROSPERS.

A large and fashionable audience gathered in the Lowe Operahouse this evening to enjoy the concert, given for the benefit of the Pasadena Health Camp Association. It was at first feared that the inclement weather might keep people away, but the fear proved unfounded. The hall was filled to capacity, and the majority of them had been sold and the association realized a handsome return from their venture.

The programme was a notable one and included some of the best-known musicians of Southern California. Vocal and instrumental numbers were alternated and the selections were happily made. Many of the artists were well known to Pasadena people, and their names were enough to attract a house, even in the case of a less popular concert for the proposed health camp for consumptives.

TRUSTEES ARE ACTIVE.

The rumor that interest in the proposed Woman's College has been allowed to lapse is indignantly denied by those who are back of the venture, and it is stated that the trustees are actively working for the success of the project. The San Francisco disaster of necessity detracted attention from the college for the time being, but as soon as the needs of the stricken city of the north had been attended to, the trustees again took up their work.

A member of the board of trustees called at the Pasadena office of The Times this afternoon and stated emphatically that any report that the college project had been allowed to lapse is untrue. Steps are at the present time being taken to insure the grading of suitable roads, and as soon as the winter rains are over, and work will be kept up until the promised college is an accomplished fact.

FUEL IS SCARCE.

Pasadena is at present in the throes of a fuel famine and those people who waited until the last moment to lay in their winter's supply of wood and coal are paying the penalty of their procrastination. Several fuel companies have announced that they will be able to supply neither wood nor coal until the first of next week, while those dealers who have stock on hand state that their supply is limited.

The shortage in the fuel supply is explained by the sudden change in weather and the consequent demand. Coal is hard to procure, and the dealers have experienced a scarcity of that commodity for some time. Fuel companies, however, say by Monday next they will be able to secure enough wood and coal to supply the immediate demand.

POPULAR COUPLE TO WED.

The friends of Miss Fannie Furman and Dr. Arthur H. Savage will be surprised to hear of the approaching marriage of these two popular young people. All of the arrangements have been kept a strict secret, and it was not until today that a rumor of the approaching ceremony leaked out. No announcement has ever been made of the engagement, and the wedding will come as a complete surprise.

Rumor has it that the ceremony will be performed tomorrow night, but no amount of persuasion would induce the members of either family to corroborate the report. It is certain that the date has been set for the immediate future, however.

BOTH MISS FURMAN AND DR. SAVAGE ARE

widely known here and both have a large circle of friends. Miss Furman is a native of Pasadena, and is popular in the younger circle in which she moves. Dr. Savage is a practicing dentist.

GREEN OPENING TOMORROW.

The formal opening of Hotel Green will be held tomorrow. There are already a number of guests registered at the hotel, and the dining-room in the west building has been open for several days, but the majority of the guests will not begin to arrive until next week.

The opening of the Green is always considered the beginning of the winter season, and the event is looked forward to with interest. The management reports more reservations than ever before in the history of the hotel, and the outlook is bright for the coming season.

It is the intention to delay the opening of the dining-room in the east building until after the Christmas holidays, but from the present outlook a change in plans may be necessary.

THROOP ALUMNI MEET.

Plans for securing a special room for the members of the alumni were discussed at the meeting of the Throop Alumni Association last night, and a committee was appointed to look after the financial end of the project. It is the general feeling among the old Throop students that they should have quarters of some kind in the buildings of the institution, and they will take steps to secure the desired result.

The members of the alumni are now planning to hold a reception some time in the winter holidays. Later on these receptions will probably be made semi-

DO PLEAD FOR OFFICIAL LIFE.

WARNING TO FREEHOLDERS AT LONG BEACH.

City Attorney and Secretary of the Chamber of Commerce Say It Is Likely to Be Fatal to Proposed Charter to Fix Date for Next Municipal Election in April.

Long Beach, Nov. 23.—At the meeting of the Board of Freeholders last night City Attorney Carl Monk and Secretary James A. Miller of the Chamber of Commerce sounded a note of warning, and told the board that there is grave danger of running the proposed new charter on the rocks, if they insisted upon calling the first election under its provisions in April. The City Attorney made the point that the present City Council is struggling under the middle and indebtedness incurred by former administrations, and is entitled to additional time to complete its plans and prepare for the changes that must come with the new charter.

AFTER DEATH MONEY.

A Milwaukee, Wis., dispatch says: "Judge Halsey has enjoined Viola A. J. Weston from drawing or receiving from the Milwaukee Trust Company \$100 deposited in her name on July 12, 1900. Marianne S. Weston's desire to provide for her death is alleged to have been the cause of the injunction order. According to the petition, which the restraining order was issued, Mrs. Marianne S. Weston of Pasadena, Cal., was the mother-in-law of Viola A. J. Weston. The mother-in-law, for some time previous to July 12, 1900, had been desirous of making provision for the prompt payment of her funeral expenses in the event of her sudden death. Pursuant to this desire, the petition says, she went to the bank, explained what she wished to do. The money was deposited in the name of Viola Weston in July 12, 1900, for the prompt payment of funeral expenses. On July 12, 1900, Viola Weston went to the trust company and attempted to draw the money, though her mother-in-law was still alive."

HAD NARROW ESCAPE.

Roy Frame, the young man who fell from the Salt Lake bridge into the Arroyo Seco last Saturday, was taken for treatment yesterday afternoon. Although still very lame, he is now able to get about, and will be but a short time when he will have fully recovered. Frame's escape from death was little short of miraculous, and but for the fact that the sandy bed of the arroyo had been excavated at the point where he fell, and the ground consequently softened, he must have suffered injuries which probably would have proved fatal. After falling from the bridge Frame attempted to climb up the sides of the arroyo. In his fainting condition he had to desist, however, and he lay helpless, calling for assistance until finally his cries brought aid and he was taken to the hospital.

UNIVERSALIST CONCERTS.

The bi-weekly sacred concerts, which have been a feature of the winter service at the Universalist Church for the past twelve years, will be commenced Sunday afternoon at 4 o'clock. These sacred concerts have always been popular, and the attendance has been exceptionally good. For this winter even more ambitious work will be undertaken.

The concerts will be given on alternate Sundays at 4 o'clock in the church. The quartet is composed of the following: J. J. Heller, tenor and leader; Florence Bland, contralto; Miss Gies, soprano; F. W. Senger, basso; Julia E. Roberts, organist.

REALTY ACTIVE.

Pasadena and Los Angeles capitalists have started in to wake up South Pasadena, and are succeeding. Over 600 feet of business frontage has just been sold through the A. T. Gilbert Company to E. T. Orr, A. W. Bumiller, H. F. Taylor, D. J. Hore, and George M. and John E. Lister.

They have changed hands, and new buildings are being outlined. Mr. Orr has offers for four storehouses as soon as they are built. He is planning a string of cluster electric lamps along Mission street just as soon as he can get the city council to agree to it, and the City Trustees. Values of business sites in South Pasadena are enhancing so that \$200 a front foot is now mentioned. The San Francisco disaster has been a great help to the proper thing. Although but partly completed, the new Graham block has all been rented.

HIGH SCHOOL WINS.

Because the second speaker in the affirmative lost the trend of his argument and fell down on his presentation, Pasadena High School won over Covina High School this evening at the local High School in a spirited discussion of the topic. "Resolved, That the present conditions of Russia are such that a truly representative government should be established, based upon an educational and property qualification." The score as announced by the judges was 54 to 45, favoring Pasadena.

PASADENA PERSONALS.

Mrs. C. W. Beaton of No. 38 West Green street announces the engagement of her daughter, Miss Marie A. Beaton to William N. Stevenson. The wedding will take place at the home of the bride on December 6.

Mrs. Harry M. Beaton of No. 24 North Raymond avenue has as her guests the Misses Margaret and Mary Wakeham of Santa Ana.

The Young Men's Club of All Saint's Church, was entertained at dinner last evening by the members of the Guild in the same church. After dinner a social hour was held.

The officers of the newly-organized club are Miss Nora Jones, president; Miss Ann Van Dine, first vice-president; Miss Frances Past, secretary; Miss Della Blackburn, treasurer, and Miss May E. Evans, reporter.

The "As You Like It" Club met this afternoon at the home of Miss Maye Lynch at No. 166 Summit avenue. The subject for the afternoon was "Current Events."

The Junior Class of the Pasadena High School is to entertain a number of their friends at the Shakespeare Clubhouse next Friday.

RECORD LEMON PICKING.

East Whittier Citrus Orchard Yields Three Times the Ordinary Quantity.

EAST WHITTIER, Nov. 23.—Truman Berry has just completed the picking of lemons from a four-acre East Whittier orchard, getting over twelve hundred field boxes from the trees. This is a record, as the best thing of a record, as the orchard was gone over thoroughly just one month ago. The average yield per acre is something like one hundred field boxes for each picking. Berry's record is, therefore, more than three times the average yield, and goes to show how California soil will repay careful and intelligent effort on the part of the rancher.

Members of the East Whittier club were guests of honor at a pleasant reception given by the Whittier Woman's Club this afternoon.

Prof. Howard Hockett and Lloyd Thompson of Whittier College gave a successful programme of music and readings at the East Whittier school house this evening, the affair being a benefit for the clubhouse work of the East Whittier women.

MUCH BUILDING BEING DONE.

Work is progressing on three handsome residences, the one for F. C. Paulin costing \$25,000, exclusive of plumbing. That of G. A. Parkyns will be finished in a few weeks and will cost more than \$15,000. E. M. Hills is having plans drawn for one to cost \$25,000. Mr. Brent has men at work on his grounds, he has just reserved a sixty-acre tract in the foothills. Here he will construct a lake and maintain a deer park.

A local Board of Charity is to be incorporated for the purpose of receiving and making proper disposition of the funds remaining in the hands of the Santa Monica Bay district San Francisco Relief Committee. At the time of the disaster much money was raised here and all but about \$1500 of it was forwarded to the North. The board that is to be organized will look to the relief of worthy charities as they develop along the bay.

A chap of the Pythian Sisters is about to be organized here. This organization takes the place of what was formerly known as the Rathbone Sisters.

The total of yesterday's rainfall was 1.75 inch, which raised the total for the season to .775. The storm did no damage, except to streets that were being repaved.

The sporting programme contains several attractive numbers for the next few days. Tomorrow afternoon the Santa Ana High School football team will be here for a game with the Santa Monica. Tomorrow night the local basketball team will appear at Venice for a game with the Venetians. Sunday the Alhambra baseballists will come to the beach for a game with the Al-Merchans. A Thanksgiving Day football game has been arranged for the beach, between the St. Vincents and the Santa Monica.

SAN FERNANDO GUN PLAY.

Alleged Basis for the Charge of Assault With Deadly Weapon at Mission Town.

SAN FERNANDO, Nov. 23.—William Meneer is under bond for examination on a charge of assault with a deadly weapon. A. J. Herbert is the complainant.

Meneer lives in a two-room shack which belongs to Meneer, and has not been able to pay his rent. Meneer went to collect the rent, and falling, began to throw the rent money, and when Mrs. Herbert, who was there, threw her out of the house. Herbert returned and Meneer drew a gun and shot at him. Herbert was badly scratched but his injuries were not serious.

AVALON RIPPLES.

AVALON, Nov. 23.—Another accident resulting from the northeast of Sunday night was reported yesterday, when Capt. Vassar sent down from Howland's for a set of batteries for the launch Frances, which is ashore at that point. The Frances is owned by M. M. Potter of Santa Barbara, but is now under lease as a fishing boat. She is not seriously injured.

BANK FOR SIERRA MADRE.

SIERRA MADRE, Nov. 23.—A charter has been granted and forwarded from Washington for the First National Bank of Sierra Madre. The officers of the institution, which is capitalized for \$25,000, have not yet been elected. Charles Kersting of this place and H. Ivor Thomas are organizers, who have recently located here, are the promoters.

DO PLEAD FOR OFFICIAL LIFE.

WARNING TO FREEHOLDERS AT LONG BEACH.

City Attorney and Secretary of the Chamber of Commerce Say It Is Likely to Be Fatal to Proposed Charter to Fix Date for Next Municipal Election in April.

Long Beach, Nov. 23.—At the meeting of the Board of Freeholders last night City Attorney Carl Monk and Secretary James A. Miller of the Chamber of Commerce sounded a note of warning, and told the board that there is grave danger of running the proposed new charter on the rocks, if they insisted upon calling the first election under its provisions in April. The City Attorney made the point that the present City Council is struggling under the middle and indebtedness incurred by former administrations, and is entitled to additional time to complete its plans and prepare for the changes that must come with the new charter.

AFTER DEATH MONEY.

A Milwaukee, Wis., dispatch says: "Judge Halsey has enjoined Viola A. J. Weston from drawing or receiving from the Milwaukee Trust Company \$100 deposited in her name on July 12, 1900. Marianne S. Weston's desire to provide for her death is alleged to have been the cause of the injunction order. According to the petition, which the restraining order was issued, Mrs. Marianne S. Weston of Pasadena, Cal., was the mother-in-law of Viola A. J. Weston. The mother-in-law, for some time previous to July 12, 1900, had been desirous of making provision for the prompt payment of her funeral expenses in the event of her sudden death. Pursuant to this desire, the petition says, she went to the bank, explained what she wished to do. The money was deposited in the name of Viola Weston in July 12, 1900, for the prompt payment of funeral expenses. On July 12, 1900, Viola Weston went to the trust company and attempted to draw the money, though her mother-in-law was still alive."

HAD NARROW ESCAPE.

Roy Frame, the young man who fell from the Salt Lake bridge into the Arroyo Seco last Saturday, was taken for treatment yesterday afternoon. Although still very lame, he is now able to get about, and will be but a short time when he will have fully recovered. Frame's escape from death was little short of miraculous, and but for the fact that the sandy bed of the arroyo had been excavated at the point where he fell, and the ground consequently softened, he must have suffered injuries which probably would have proved fatal. After falling from the bridge Frame attempted to climb up the sides of the arroyo. In his fainting condition he had to desist, however, and he lay helpless, calling for assistance until finally his cries brought aid and he was taken to the hospital.

UNIVERSALIST CONCERTS.

The bi-weekly sacred concerts, which have been a feature of the winter service at the Universalist Church for the past twelve years, will be commenced Sunday afternoon at 4 o'clock. These sacred concerts have always been popular, and the attendance has been exceptionally good. For this winter even more ambitious work will be undertaken.

The concerts will be given on alternate Sundays at 4 o'clock in the church. The quartet is composed of the following: J. J. Heller, tenor and leader; Florence Bland, contralto; Miss Gies, soprano; F. W. Senger, basso; Julia E. Roberts, organist.

REALTY ACTIVE.

Pasadena and Los Angeles capitalists have started in to wake up South Pasadena, and are succeeding. Over 600 feet of business frontage has just been sold through the A. T. Gilbert Company to E. T. Orr, A. W. Bumiller, H. F. Taylor, D. J. Hore, and George M. and John E. Lister.

They have changed hands, and new buildings are being outlined. Mr. Orr has offers for four storehouses as soon as they are built. He is planning a string of cluster electric lamps along Mission street just as soon as he can get the city council to agree to it, and the City Trustees. Values of business sites in South Pasadena are enhancing so that \$200 a front foot is now mentioned. The San Francisco disaster has been a great help to the proper thing. Although but partly completed, the new Graham block has all been rented.

HIGH SCHOOL WINS.

Because the second speaker in the affirmative lost the trend of his argument and fell down on his presentation, Pasadena High School won over Covina High School this evening at the local High School in a spirited discussion of the topic. "Resolved, That the present conditions of Russia are such that a truly representative government should be established, based upon an educational and property qualification." The score as announced by the judges was 54 to 45, favoring Pasadena.

PASADENA PERSONALS.

Mrs. C. W. Beaton of No. 38 West Green street announces the engagement of her daughter, Miss Marie A. Beaton to William N. Stevenson. The wedding will take place at the home of the bride on December 6.

Mrs. Harry M. Beaton of No. 24 North Raymond avenue has as her guests the Misses Margaret and Mary Wakeham of Santa Ana.

The Young Men's Club of All Saint's Church, was entertained at dinner last evening by the members of the Guild in the same church. After dinner a social hour was held.

The officers of the newly-organized club are Miss Nora Jones, president; Miss Ann Van Dine, first vice-president; Miss Frances Past, secretary; Miss Della Blackburn, treasurer, and Miss May E. Evans, reporter.

The "As You Like It" Club met this afternoon at the home of Miss Maye Lynch at No. 166 Summit avenue. The subject for the afternoon was "Current Events."

The Junior Class of the Pasadena High School is to entertain a number of their friends at the Shakespeare Clubhouse next Friday.

RECORD LEMON PICKING.

East Whittier Citrus Orchard Yields Three Times the Ordinary Quantity.

EAST WHITTIER, Nov. 23.—Truman Berry has just completed the picking of lemons from a four-acre East Whittier orchard, getting over twelve hundred field boxes from the trees. This is a record, as the best thing of a record, as the orchard was gone over thoroughly just one month ago. The average yield per acre is something like one hundred field boxes for each picking. Berry's record is, therefore, more than three times the average yield, and goes to show how California soil will repay careful and intelligent effort on the part of the rancher.

Members of the East Whittier club were guests of honor at a pleasant reception given by the Whittier Woman's Club this afternoon.

Prof. Howard Hockett and Lloyd Thompson of Whittier College gave a successful programme of music and readings at the East Whittier school house this evening, the affair being a benefit for the clubhouse work of the East Whittier women.

MUCH BUILDING BEING DONE.

Work is progressing on three handsome residences, the one for F. C. Paulin costing \$25,000, exclusive of plumbing. That of G. A. Parkyns will be finished in a few weeks and will cost more than \$15,000. E. M. Hills is having plans drawn for one to cost \$25,000. Mr. Brent has men at work on his grounds, he has just reserved a sixty-acre tract in the foothills. Here he will construct a lake and maintain a deer park.

A local Board of Charity is to be incorporated for the purpose of receiving and making proper disposition of the funds remaining in the hands of the Santa Monica Bay district San Francisco Relief Committee. At the time of the disaster much money was raised here and all but about \$1500 of it was forwarded to the North. The board that is to be organized will look to the relief of worthy charities as they develop along the bay.

A chap of the Pythian Sisters is about to be organized here. This organization takes the place of what was formerly known as the Rathbone Sisters.

The total of yesterday's rainfall was 1.75 inch, which raised the total for the season to .775. The storm did no damage, except to streets that were being repaved.

The sporting programme contains several attractive numbers for the next few days. Tomorrow afternoon the Santa Ana High School football team will be here for a game with the Santa Monica. Tomorrow night the local basketball team will appear at Venice for a game with the Venetians. Sunday the Alhambra baseballists will come to the beach for a game with the Al-Merchans. A Thanksgiving Day football game has been arranged for the beach, between the St. Vincents and the Santa Monica.

SAN FERNANDO GUN PLAY.

Alleged Basis for the Charge of Assault With Deadly Weapon at Mission Town.

SAN FERNANDO, Nov. 23.—William Meneer is under bond for examination on a charge of assault with a deadly weapon. A. J. Herbert is the complainant.

Meneer lives in a two-room shack which belongs to Meneer, and has not been able to pay his rent. Meneer went to collect the rent, and falling, began to throw the rent money, and when Mrs. Herbert, who was there, threw her out of the house. Herbert returned and Meneer drew a gun and shot at him. Herbert was badly scratched but his injuries were not serious.

AVALON RIPPLES.

AVALON, Nov. 23.—Another accident resulting from the northeast of Sunday night was reported yesterday, when Capt. Vassar sent down from Howland's for a set of batteries for the launch Frances, which is ashore at that point. The Frances is owned by M. M. Potter of Santa Barbara, but is now under lease as a fishing boat. She is not seriously injured.

Choose Dr-Graves' Tooth Powder

Dentists say—"It is the best dentifrice and antiseptic in the world for the teeth and gums—leaves the enamel white and gleaming; also leaves a delicious after taste."

In handy metal cans or bottles, 25c.

Dr-Graves' Tooth Powder Co.

We are happy in being able to gladden the hearts of many a struggling family by cashing his pay checks on Saturday night, thereby causing himself and family to have the coin with which to buy the necessities of the household—and to enjoy a happy home.

THE WEATHER. DAILY CITRUS REPORT
COMPARATIVE TEMPERATURES.

	Max.	Min.	Max.		Max.	Min.
Boston	54	42	19	New York...	58	42
Washington	61	38	51	Buffalo	60	39
Pittsburgh	53	24	36	Cincinnati...	68	34
Chicago	60	28	34	St. Paul	54	24
St. Louis	62	22	27	Kansas City...	69	37
Los Angeles	58	46	42	Jacksonville	52	47

The maximum is for day before yesterday; the minimum for yesterday. The mean is the average temperature for the two days.

Yesterday's Forecast and Report.
U. S. WEATHER BUREAU, Los Angeles, Nov. 2. (Reported by A. S. W. Walker, Local Forecaster.) At 5 o'clock a.m. the thermometer registered 41 deg.; at 8 p.m. 71 deg. Relative humidity, 4 a.m., 67 per cent; 8 p.m., 75 per cent. Wind, 5 a.m., northeast, velocity 5 miles; 8 p.m., northeast, velocity 5 miles. Maximum temperature, 70 deg.; minimum, 41 deg. Rainfall past twenty-four hours, .01 inch.

Weather Conditions.—The disturbance central yesterday over Arizona has remained nearly stationary during the last twenty-four hours. It caused the first rainfall of consequence in Los Angeles since last spring. Since the rain began, 14 of an inch has fallen, together with the slight amount which occurred earlier in the morning, bringing the seasonal precipitation up to .31 of an inch. Good rain is reported elsewhere in Southern California, while considerable snow has fallen in Arizona and Utah. Fair, cool weather prevails elsewhere in the country, except along the immediate Atlantic coast, where it is warmer than usual. The conditions in Los Angeles and vicinity will continue unsettled tonight, followed by fair weather Saturday. Sharp frost will occur in exposed places tomorrow morning.

Forecast.—Local forecast for Los Angeles and vicinity: Generally fair tonight; Saturday fair with frost in the morning; widely mostly clear Sunday. SAN FRANCISCO, Nov. 2.—The southern area is moving slowly northward over Southern Nevada and Southern Utah. Light rain has been general in Southern California and Arizona with new in the mountains. The brisk northeast winds in Northern California have changed to northerly. Somewhat warmer weather may be expected Saturday afternoon and night, although heavy frost is likely in the morning. Forecast: Los Angeles and vicinity: Fair Saturday; light rain in the morning; widely mostly clear Sunday. SACRAMENTO, Nov. 2.—The southern area is moving slowly northward over Southern Nevada and Southern Utah. Light rain has been general in Southern California and Arizona with new in the mountains. The brisk northeast winds in Northern California have changed to northerly. Somewhat warmer weather may be expected Saturday afternoon and night, although heavy frost is likely in the morning. Forecast: Los Angeles and vicinity: Fair Saturday; light rain in the morning; widely mostly clear Sunday.

LOCAL STOCK MARKET.
A ASSOCIATED OIL showed a particularly healthy tone on the early call of the Los Angeles Stock Exchange Friday. Transactions of 14,000 shares being made at prices equalling and ranging above the closing quotations of Thursday. The stock opened apparently weaker with a bid of 32 and a 3/4 asked. Considerable buying and selling orders were on the floor and the stock rose quickly to a reasonable trading level. Thirteen thousand of the 14,000 shares sold were at 32 1/2 to 33 1/4 for immediate cash delivery, the remaining 1,000 shares at 33 1/2 to 34 1/4. A bid of 32 1/2 was made for a lot of 5,000 shares while 34 was a standing bid for buyer thirty days. As high as 36 was bid for a third day call. The stock closed with 1/2 gained on the bid and 1/2 a point on the asked price of the preceding day, at 32 1/2.

Central Oil continued to be a favorite, the stock advancing 1/2 on the bid of Thursday, closing at 16 with none offered. Trades to the extent of 10,000 shares were made on the bid and 1/2 a point on the asked price of the preceding day. The stock closed with 1/2 gained on the bid and 1/2 a point on the asked price of the preceding day, at 32 1/2.
